

Beginner Longarm Certification

This class is for those who have little to no experience on a longarm quilting machine. We will cover all the basics of longarm machine quilting, from maintenance to loading a quilt to quilting a quilt. Once you have taken this class, you are eligible to rent machines on a regular basis at Time Flies Quilt and Sew LLC.

Supply List: You will bring (1) practice quilt and (2) a small quilt to finish (baby or throw size)

A practice quilt sandwich consists of a top, backing and batting about a yard or so wide. You will use this to get comfortable with the machine before you quilt on your quilt. Some basic designs will be discussed. Then after practice, you will quilt a baby or throw sized quilt. Keep in mind that the backing needs to be 6 inches bigger than your quilt top. All threads are included in the beginner class. Batting available for purchase. Once you have taken this class - you can rent a longarm to quilt your own quilts!

If you do not have a quilt top, we can use plain white fabric for your class if you prefer or one of our many long arm quilting panels.

Please register online and then call to get on our calendar that works for your schedule or simply come into the shop to schedule your class and rental time. Plan to spend between 4 – 5 hours in this class, and pack a lunch. Be prepared to lose track of time, because “time flies when you’re sewing!”
