

# Crafty Ideas to Get You Started

These are just some quick and easy ideas from The Bear using our *Happy Harvest* fabrics, buttons and embellishments, paper goods, a little glue, and even recycled containers! Hopefully, our simple ideas will help inspire you!

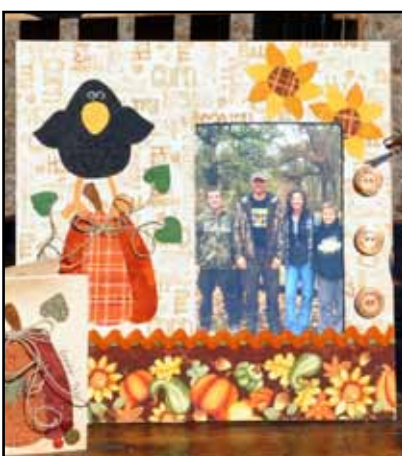

*Turn plain and recycled items... into great crafts! No sewing needed!*

Pringles cans!  
Great for cookies!

The paper mache boxes above make a great statement, and are all made using just fabric and Mod Podge®.

The appliques were pieced together first with fusible web and an applique pressing sheet, then Mod Podge® was used to adhere all fabric pieces to the frame.

Making a greeting card that coordinates with your quilted project is a great way to complete a gift. These tri-fold cards by *Hillcreek Designs* allow you to conceal stitching or brads that may have been used on the front of the card so they do not show when the card is opened! Check out our website to purchase these cards!
