

# ***Cayman Islands***

## ***Little Cayman Beach Resort***

***February 19th - 26th , 2022***

**Diver: \$2,225 pp/double**

Join us for a spectacular week on Little Cayman Island which is the smallest of the three islands. Little Cayman Beach Resort was designed with divers in mind. Enjoy the carefree, laid back intimate environment where resort staff will provide us with personalized services above the water. Valet Diving? You got it!! Reef Divers will do all of our heavy lifting. They will haul, rinse, store and dry your dive gear daily!!

Diving is mostly current-free, which is optimal for new divers who want to move at their own pace and underwater photographers who may want to spend their entire dive at one location working on that perfect shot. All of our dive sites are moored not only to protect marine life but to also mark the beginning and ending points of a dive. With sheer underwater cliffs that plummet to unseen depths, generations of ocean divers have made Little Cayman Island Resort a leading Caribbean diving destination. From healthy reefs to the iconic Bloody Bay Wall, enjoy unlimited visibility, jaw dropping swim throughs and plentiful marine life. One of the days, weather permitting, we will try and visit the wreck of the Captain M.V. Tibbitts on Cayman Brac. Whether you go deep or stay shallow, diving Little Cayman Island is a bucket list experience.

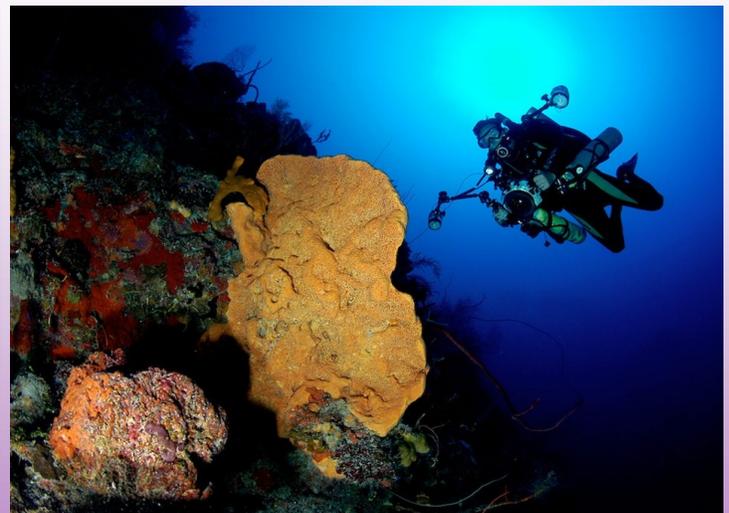

After a great day of diving, relaxing or exploring, make sure to kick back and watch some of the most beautiful sunsets. you will ever see!!
