

## Installation Instructions

1. Download the file using the button above.
2. After downloading, locate the file in your download folder. Then, **double-click** it to unzip the file.
3. Open your FTCU Software.
4. Click **Tools** on the menu bar and then select **Import Assets**. (see image below)
5. Navigate to the Asset File location on your computer. (most likely in your downloads folder)
6. Select the Asset File.
7. Click Open.
8. In the Import Assets window, do the following:
  1. Click on the "Check All" box
  2. Check the "Overwrite existing files" box
  3. Click "OK" (after pressing OK the files will be installed and ready to use)
